Re: Wireline-Wireless Local Number Portability Agreement

Dear David Olson:

Verizon Wireless would like to establish an Inter-carrier Communications Process (ICP) for porting of numbers between Verizon Wireless and Oneida Telephone Exchange. We need to reach agreement quickly given the pending FCC deadline.

Attached is a proposed service level agreement which we believe will facilitate quick, reliable, and seamless porting for our respective customers.

Please let me know your availability, so that we can set a time for a meeting. Please direct your response to our single point of contact, Sharon Cañas, who can be reached at 925-279-6122 or Sharon.Canas@VerizonWireless.com. I look forward to working with you to develop an efficient and effective inter-carrier porting process between Verizon Wireless and Oneida Telephone Exchange.

Thank you for your immediate attention to our request.

Sincerely,

for

Attn: David Olson,

Consistent with the rules of the Federal Communications Commission ("FCC"), on November 24, 2003, Verizon Wireless will begin competitive porting by offering customers local number portability ("LNP").⁵ The FCC sought to simplify the task of identifying the switches in each MSA in which number portability is deployed to facilitate competitive entry.⁶ Thus, the FCC's rules require local exchange carriers to make available, upon request by any interested party, a list of their switches for which provisioning of number portability has been requested (and therefore provided) and a list of their switches for which provisioning of number portability has not been requested.⁷

Verizon Wireless has reviewed common licensed areas and has found the following switches and NPA-NXXS not LNP capable. Upon receipt and verification of the attached list Verizon Wireless will compare switches and NPA-NXXs to its licensed service areas and request that all commonly licensed areas are provisioned for LNP service. The timeframes for conversion to LNP of any additional switches are governed by the FCC's rules and range from 30 days to 180 days, depending upon the status of the switches.

To facilitate this request, please review and list any additional switches (by OCN, switch CLLI, associated rate center abbreviation, and NPA-NXX) on the attached form that are not LNP capable and by what date these will be LNP capable. In addition, for those switches that are not LNP capable, please indicate the status of the switch using the categories developed by the FCC in its rules (i.e., equipped remote, hardware capable, capable switches requiring hardware, and non-capable).⁸ We request that you acknowledge receipt of the Bonafied Request and arrange to complete and return the attached form to the undersigned contact for Verizon Wireless within 10 days. Please call the undersigned with any questions or concerns.

Re: Local Number Portability

Dear David Olson:

The FCC has recently reiterated the pre-existing deadlines for local number porting for wireless and wireline carriers operating outside the Top 100 MSAs, effective May 24, 2004. Verizon Wireless Cellco Partnership d/b/a Verizon Wireless would like to begin to complete a Service Level Agreement (SLA) to ensure a smooth transition to number portability by establishing procedures to govern the exchange of information during the porting process. Specifically, an SLA would serve several purposes: memorialize the intercarrier communications processes that the two carriers intend to follow, capture appropriate porting center and trouble contacts, and contain the parties' agreement to successfully facilitate porting customers. If you have not already received a copy of our SLA, you can obtain one by contacting Sharon Canas at 925-279-6122 or email Sharon.Canas@VerizonWireless.com.

If negotiating an SLA is not possible in the next few weeks before the LNP deadline, Verizon Wireless's immediate concern is in obtaining, at minimum, a Trading Partner Profile (TPP). The TPP would provide basic factual information necessary to accomplish portability and would include those entities covered by the profile and any back-office or porting center contacts. Verizon Wireless plans to integrate this information into its information systems and also provide it to personnel staffing our porting center. Whether or not an SLA is ultimately executed, sharing this type of factual information is necessary to facilitate porting as well as fallout resolution. In this regard, we have enclosed a copy of the TPP with appropriate contact information.

Please include a response to this request along with a point of contact for provision of TPP information and/or SLA discussions in a letter or email addressed to the undersigned. Thank you for your immediate attention and cooperation.
